

711410, In-Car Mounting Bracket for Toyota Auris - 2013>

- Unclip the entire radio fascia panel, starting in the lower corners by removing the two small moulded escutcheons. Disconnect the two feeds to the rear of the panel and set aside
- Remove the 10 mm bolt in the lower left of the recess, using a magnetic attachment as it is recessed considerably
- Locate the bracket with this bolt and seat against the console wall
- Re-attach the feeds and refit the trim
